NOTICE TO CONTRACTORS AND BUILDERS.

Important Discoveries and New Arrangements!

THE subscriber has discovered upon his premises a splendid

QUARRY OF FREESTONE,

which promises to surpass anything yet found in the state, as well as add to the many already developed resources of our city.

A Beautiful, Cheap and Durable Building Material,

He has made arrangements to work this, together with the justly celebrated

Monterey Lime Stone Quarry,

on a scale equal to the demands of our enterprising citizens, and in order to accommodate his numerous customers, he has made arrangements to keep constantly on hand a large supply of

ATHENS MARBLE

(or Chicago stone.) He is now fitting up extensive saw and scouring mills, and other machinery necessary for working the same, at a great reduction from former prices.

He also wishes to call attention to the fact that sound cutting or dimension stone can only be found at great distances from the surface, and that the Monterey Quarry is the only one in this county that has been worked far enough to reveal these formations that are imperishable when exposed to the action of air and frost.

He is also supplying his Quarry with Derricks to facilitate the handling and loading large stone, and is fitting up expensive wagons, carts and trucks, rigged with the most approved appliances for moving and delivering dimension stone of any size, from two to thirty feet square, and from six to twenty inches thick, or any required length up to one hundred feet, to any part of the city or on board of the cars.

He is prepared to furnish

Cut Stone

of every description,

PLAIN, MOULDED, CARVED OR POLISHED FLAGGING

of any required dimension.

Curbing, Paving, Rubble and Coursing

stone of the best quality in the state, all of which will be delivered at his Quarries or any part of the city, to suit purchasers.

In conclusion, he begs to assure the public that from the superior quality of his materials, and facilities for furnishing, he can and will make it to their interests to patronize the Monterey Quarries.

☞ All Orders from the city or country will be promptly attended to.

THE above are *First Class, justly popular, and prompt paying* companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have but *few equals, and no superiors.* They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, *in times of panic,* as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing *partial and one-sided* statements of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital *twice* the amount, and in most instances, *four times,* needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Policies issued without delay, and firms risks for a series of years taken at less rates than can be done by Mutual Companies, and a *certainty* given instead of an *uncertainty.* All losses promptly adjusted and paid.

New York Life Insurance Company,

FOR CHIEF JUSTICE OF THE SUPREME COURT,
A. SCOTT SLOAN,
Of Beaver Dam.

You may repeal, obliterate, burn up every law in the whole eleven volumes of your laws, and not a human being in my state would be affected a single farthing in his industrial pursuits, in his material interest; and the statement is generally true of every state from this to the Rio Grande.—*Senator Toomb's Speech.*

This was addressed to the senate of the United States, and the eleven volumes which he refers to are the laws of the United States. He designs to show the entire independence which his state maintains towards the general government, and that he does not ask its protection in a single particular. We were quite pleased to read this passage from his speech, for it releives us from the fear that we have always had that Georgia and the south generally asked protection for one of its material interests—slavery. Now, our doctrine has always been, and is now, that the general government should withdraw all protection from or recognition of this institution; that the nation should do what the fathers of the government intended, ignore it entirely; and never mention the word slave or slavery, either directly or indirectly, in any of its laws or treaties. That is the whole of our doctrine as a politician in relation to slavery in this country. If this were carried out strictly, the subject of slavery would be banished from the halls of congress, the territories, and the courts of law. Withdraw all support of it, and let it stand or fall as it may have strength to do so. This could not be objected to by Senator Toombs, since he thinks that his state of Georgia, and in fact all the slave states would not be injured a single farthing if every law of the United States should be abolished. These are very brave words, but if we should agree with him even in this single particular of repealing the laws protecting slavery, a storm of indignation would be raised in the whole south, not even excepting the state of Georgia, whose senator pretends to scorn the aid of the general government. If the fugitive slave act should be repealed, would the south remain indifferent? We judge not, if their anxiety to have it enforced is any criterion. What if congress should agree with the supreme court and enact that, inasmuch as slaves are not "persons," the "three-fifths of all other persons" who form a part of the basis of representation in congress, must be considered as white people? Would the south consider that her "material interests" remained unaffected? According to Senator Toombs' boast, as above quoted, they would. We would like to see the matter tested. Let all laws in relation to slavery be repealed, as a beginning, and let us see what the south will do.

EXECUTION OF STEPHENS AND HAZLETT.—The execution of these men was attended by a large concourse of people. Two military companies were present. The condemned men appeared resigned to their fate. Stephens died very hard, while Hazlet died without a strugle. Both exhibited great firmness. There were no religious exercises at the gallows, as the prisoners persisted in refusing all the kindly offices of the ministers in their last moments. They were both spiritualists, and had a peculiar religion of their own, which enabled them to meet their fate with cheerfulness and resignation.

BURNING SLAVES ALIVE.—When Mr. Van Wyck, in the debate in the house last week, charged the south with the crime of burning slaves alive, Mr. Davis, of Mississippi, denied the truth of the statement, and pronounced him a scoundrel and a liar for making it. Mr. Gartrell, of Georgia, also declared the allegation a falsehood and its author a slanderer. But it was strictly true notwithstanding. The New York Tribune of Monday publishes a list of eleven well authenticated cases of slave burning, all occurring within a few years, and nearly all taken from southern papers. These eleven cases are only as the editor of the Tribune was able to discover by a hasty examination of his files. If every outrage of this kind had been made public, the list would probably be swelled to hundreds. In view of these facts we think it not improbable that the public will come to the conclusion that Mr. Davis is the "liar and scoundrel," and Mr. Gartrell the "slanderer." They denied certain historical events, well-known to every intelligent man, and insolently assailed a fellow member for stating these facts in retaliation for the real falsehood that New England was guilty of a similar crime in the days of Salem witch-craft.

FREE SPEECH.—Hogan, the St. Louis postmaster, has intercepted 1,500 copies of Helper's Book, passing through his office, and burned them. This is a country of free speech, is it?

☞ The Milwaukee News has taken a great fancy to Beecher—publishes his sermons, quotes him, and eulogises his literary productions. Is this the same Beecher who gave a Bible and some Sharp's rifles to the Kansas volunteers, and is this the identical News which abused Beecher for his Kansas shrieking speeches. We are getting confused at this mixing up between Beecher and the organ of the lower strata of the anti-nigger democracy.

Lola Montez lectured in Springfield on Thursday night, and at Peoria on Friday night. She is making a general lecturing tour of the west.

Words Fitly Spoken.

The New York Evening Post has broken ground on the presidential question, with so much sound sense, good discretion and wise judgment, that we copy the concluding part of its remarks with much satisfaction. After discussing the ends and aims of the republican party, it proceeds to say that—

"It ought to select its presidential candidates from among its own men, and not to go outside its own ranks under any consideration whatever. If those opponents of the administration who have no staple organition of their own, are in earnest in what they profess, they will have no difficulty in voting for such men as we can present.—But if they insist upon our taking their men as the sole condition of their votes it will show that they are not sincere in their cooperation, but in fact had rather see the democratic party succeed than allow a truly republican administration. To select our candidates from among those who labored so earnestly to defeat us in 1856, would be degrading as well as suicidal. If we are willing to have a man who stands upon the same ground with Fillmore, how can we justify ourselves with not having voted for Fillmore last time? But, indeed, if we are willing to take such a man now, we had best by all means take Fillmore himself, with his prestige of experience and statesmanlike knowledge and habits.

But no real republican is willing to take the back track now, when the tide of public feeling is so much higher than it was ever before. If the outsiders will vote with for our men, give them all due credit, and let them have for their reward the blessings of a renovated government and a country rescued from dishonor. If they will not do this, they might better defeat us in the election than destroy us after it, which they would be sure to do if we give the power into the hands of their men.

With such men as Seward and Chase, Banks and Lincoln, and others in plenty, let us have two republicans, representative men, to vote for. Let us have candidates, first of all, who will unite and consolidate our own ranks, and prepare us for further service. Better come out of the campaign as we did last time, united and consolidated, and full of confidence and resolution, though defeated, than to win a nominal victory, which shall leave the power in the hands of those who have no sympathy with us, and ourselves disheartened and demoralized."

LETTER FROM HON. CHA'S BILLINGHURST.—To show conclusively that the opinions of Judge Sloan, expressed in his letter defining his position were not trumped up for the occasion, but have long been entertained by him, we publish the following letter:

JUNEAU, March 12, 1860.

C. L. Sholes, Esq.:—

DEAR SIR:—I regret very much that your paper is not cordial in the support of Judge Sloan. He is deserving a better service at your hands. You hesitate because you do not know his position on the question of state rights. In your distrust, you do him great injustice. His sentiments in this vicinity are well known. He maintains and sustains the position taken by our supreme court in the Booth and Ryecraft cases as sound and constitutional law.

You, perhaps, recollect the letter I wrote to Judge Howe last year, and which was published in the Free Democrat some time in June. Before that letter was published, I submitted it to Judge Sloan, and he unhesitatingly gave it his approval. I know such are his sentiments *now*, and I presume you do not doubt my soundness on this question.

Please refer to your files—read my letter which he endorsed, you will then be able to judge whether he is for the rights of the states, or for a consolidated government.

Again, upon the promulgation of Chief Justice Dixon's late opinion, I know that Judge Sloan expressed his emphatic dissent therefrom.

I hope you will hesitate no longer, but will give to Judge Sloan an earnest support.

Yours sincerely,
C. BILLINGHURST.

IMPORTANT FROM MEXICO.—The Mexican steamer Marquese arrived below New Orleans on the 19th, as a United States prize in charge of Lieut. Chapman, of the Saratoga. The Saratoga's men also captured the steamer Miramon, which arrived at noon; both vessels were captured off Antonio Bezardo, on the morning of the 6th, after a brief action and with only a slight loss. The steamer Marquese has a portion of the prisoners and the United States ship Preble is to bring the rest. Alvarado is reported to be in possession of Miramon. The exquator of the American consul at Vera Cruz has been revoked. The city of Mexico is surrounded by the liberals.

Why our vessels of war have captured those of Mexico is not stated. It probably had something to do with the attack of Miramon upon Vera Cruz on the 7th, when he was repulsed. Our government is endeavoring to support Juarez, the leader of the opposite faction. Miramon has taken possession of the city of Alvarado.

An expedition had left Havana, under Moran, who hoisted the Mexican flag when outside the harbor. As far as was known, the plan was to land on the coast at or near the mouth of the Medelin river, and thence communicate with Miramon. Moran had on board a large quantity of ammunition, stores, and twelve and twenty-four pounders. It was believed that several other vessels had sailed from Havana on the same mission. A well laden schooner is known to have sailed on the 16th. Meanwhile Juarez is on the look out for their expedition. He had a battery planted at the mouth of the Medelin river. Six or seven schooners rigged gun-boats, mounting sixty-four guns, were stationed along the coast.

THE ASSESSMENT LAW.—The Madison correspondent of the Free Democrat says:

This legislature is at the old trick of former ones, on the matter of the assessment law. In the first place the senate has been laboring very industrously in amending and modifying the law of the last session, and after spending some weeks upon it, sent it to the house. The assembly paid no attention to it, other than to refer it to a select committee, who reported a bill of their own. This bill they have been considering for several days, and nights too for that matter, until last night, when the bill was "scooped out" by a two thirds vote and the old law of 1849 was substituted, and they are now tinkering away at that, stopping the holes with soft solder, &c.—One would have naturally supposed that they would have taken some notice of the senate bill and have come to some conclusion about it before they attempted any thing else, but the house had taken another view of the matter. Any body can see with half an eye just how the thing will terminate—just as it terminated last year, after failing to agree on any bill, they will wait till the last days of the session, and then swallow the senate bill at one gulph without chewing, like an anaconda swallowing a rabbit.

Death of Gov. Bissell.

Gov. Bissell of Illinois, died at his residence in Springfield on the 18th inst. The Chicago Journal thus speaks of him:—

Hon. William H Bissell was one of the most gallant, distinguished and honorable citizens of Illinois. He was a native of New York, and came to this state when quite a young man, and settled in Monroe county, where he for some years practiced medicine, and represented that district in the legislature of 1839—40, which we believe, was his first experience in public life. He afterwards studied law, and removed to Bellville, in St. Clair county, where he practiced the legal profession, and where he resided up to the time of his election as governor.

When the Mexican war broke out, Colonel Bissell took command of the second regiment of Illinois volunteers, and distinguished himself alike by his manly bravery and his military ability. Peace being declared, he returned to his home, and as a tribute of their admiration of his character as a man and a soldier, the people of the sixth district nominated and elected him to congress—and at the expiration of his first term reelected him to a second term, without one opposing vote; and that term expiring, he was again and for the third time elected.—Owing to physical weakness, the result of a paralytic stroke, he felt himself compelled to decline to be returned to congress, after having ably and faithfully represented his constituency in that capacity for three terms—from 1850 to 1856.

In the year 1856, the first republican state convention that was ever held in Illinois, with great unanimity nominated him to the office of governor, to which he was elected at the general election in the autumn of that year, and in which capacity he has most honorably and satisfactorily acquitted himself, notwithstanding the feebleness of his health, the result of the physical misfortune alluded to above. His term as governor would have expired with the close of the present year.

The recent illness of Governor Bissell, which has resulted in his death, was of the character of pneumonia, the result of a severe cold he contracted some six or eight days ago. Though his friends and physicians at Springfield had hopes of his recovery, yet from his critical condition, his death was not unexpected.

Governor Bissel was over fifty years of age. Lieutenant Governor Wood will act as governor during the remainder of the term.

Preventive for Chintz Bug.

A writer in the Rockford Register recommends the following remedy against the ravages of the chintz bug:

We have an insect that is far more injurious to the crops of the farmer than the corn grub. It is the chintz bug. This bug, which I have observed closely, hides itself in gopher holes, under stones, in cellars, and a few days since I discovered a large number of them in shocks of corn in the field.—Like the house fly, many are killed by the winter. The bug moves to the wheat field about the 1st of June, when it deposits its egg at the roots of the growing wheat. In twenty days they will commence work by crawling up the stalk of the wheat, and sucking the sap therefrom. After passing through the wheat, sapping every particle of life juice of the grain, they crawl to the corn, which at this season is green and tender. Here they work until they commence flying which is about the 1st of September. The first frost causes them to disappear.—Now it is evident if you can furnish some crop for them as they leave the wheat, and which will detain them for a few weeks, your corn will be beyond their power to do harm. I have tried various means to keep them from the corn field, but without success, until I sowed Millet, or Hungarian grass, and eight year's experience convinces me that this is a sure remedy.

To protect corn sow a space of one rod wide between your corn and all small grain about the 1st of June, and your corn is safe. They like it better than corn, and will not leave it. They do not damage the grass so as to prevent its making very good hay.

To prevent the ravages of the bug in wheat, sow early in March, so that the grain will get past the milky stage before it commences to work in such numbers as to destroy the grain.

I would here add that Millet is excellent for horses, cattle or hogs. It is as good as hay and oats combined. To raise it, the ground should be prepared as for spring wheat. Sow one half bushel per acre. Cut for hay when the seed is in the dough.—Feed it to horses and cattle without thrashing. The yield of this grass with me is 15 to 20 bushels of seed and 2½ tons of hay per acre.

As I have written, from my observation, it is sure we shall have the chintz bug in our fields in great numbers this summer, and much damage will be done unless prevented.

Judge Sloan.

Hon. A. Scott Sloan, on whom the choice of the convention has fallen by such a complimentary vote, has been an honored citizen of this place for about seven years, and is now about forty years old. He formerly resided in Madison county, New York, and in that state, while a young man, he held the office of the clerk of the court, and clerk of the state senate. He has practiced law during his residence here extensively and successfully. When Larrabee resigned his seat as judge of the circuit, Governor Randall appointed Mr. Sloan to the vacancy. The duties of circuit judge were never discharged with more ability or more acceptably to the people than while he held the office. His short term won for him a state reputation for spotless judicial character, as well as for superior legal attainments. As a man, he has an unsullied character, and those who know him best are most eager to do him honor. Politically, he has acted with the republican party from its organization in this state, and while he has never descended to the position of a mere partisan, he has been a constant and sincere supporter of republican principles and measures, both state and national; and in accordance with this profession he supported Byron Paine in the judicial canvass last year. We have no manner of doubt that he will be elected by a very large majority, to fill the seat of the lamented Judge Whiton.—*Beaver Dam Citizen.*

EFFECT OF THE NEXT CENSUS.—It has been estimated that the next census will show the population of the free states to be 19,630,000, and the slave state 8,216,400 free, and 3,930,000 slaves. If the ratio of representation in congress be fixed at 120,000, as it probably will, the slave states will have 87 members, making no allowance for what they may gain by fractions,—showing a loss of three; and the north will have 163, being a gain of 16. Of this gain there will be three in Michigan, if the population shall reach 850,000, and two if it be only 800,000. The relative gains of the free over the slave states by the next apportionment will thus be no less than nineteen. And thus it will go on, the south at each decade of years losing a portion of her political strength, while slavery shall last, and the north adding as steadily to hers.

☞ The bill to reduce the rate of interest from 12 to 10 per cent was up in the assembly on the 19th, and the motion to indefinitely postpone it was lost—ayes 20 noes 39.

SPARTA, Wis., March 20.

A destructive fire occurred in the town of Black River Falls, Jackson county, last Sunday morning, destroying 43 buildings, among which was the Shanghai House and the office of the Jackson County Banner.—All the stores in the town, with the exception of one belonging to F. F Parsons, were destroyed. As the fire was discovered in two different place at the same time it is supposed to have been the work of an incendiary. Loss estimated at between $30,000 and $40,000.

MILWAUKEE, Mar. 20.

A fire broke out on the corner of East Water and Wisconsin streets, at 12 o'clock to-day, consuming all the wooden buildings, 12 or 14 in number, making a clean sweep to the Newhall House. All the brick buildings are safe. The loss on the buildings cannot be more than $10,000, if that. No insurance. Most of the goods were saved. The Newhall House was in great danger, but through the efforts of the fire department and citizens, it was saved without material injury.

The Sardinians and Prelates who are members of the senate have presented petitions demanding the maintenance of the Imperial power of the Pope.

The correspondence of the Morning Post have received despatches from all parts of Italy. The Emperor's speech has not been very favorably received. The people of Central Italy will confine the vote for annexation of Central Italy to Piedmontes.

A PLESANT PROSPECT FOR THE CHARLESTON DELEGATES.—From its frequent threats of disunion and other manifestations of unwonted valor, one of our southern states has won the title of the "plucky state" of South Carolina. This title is doubly appropriate, in view of the coming Charleston convention, during which the South Carolinians will show that while plucky themselves, they are fully competent to the task of plucking others. The shrewdness and business cunning usually attributed to "Yankee abolitionists" appear to be integral parts of the South Carolinian's character, for we learn from the Charleston papers that in anticipation of the meeting of the convention on the 23d of April, and consequent influx of strangers, the prices of provisions and lodging rooms have gone up to an alarming extent. The landlords of the different hotels attempted to hire various building throughout the city for the accommodation of their expected guests. Now it might be reasonably expected that a feeling of patriotism and sympathy with a convention openly called to favor the southern institution, regarding which South Carolina is touchy, would induce the owners to offer the premises for this patriotic use at the lowest possible rates. On the contrary, however, the chivalric property-holders demand prices double and treble what they would ask under ordinary circumstances. Ot course the purses of the delegates and other visitors during the convention must suffer for this.

But a still greater calamity awaits the good democrats who make their rendezvous at Charleston. Famine stares them in the face. Beef is now selling thero at twenty-five cents a pound, and the price threatens to advance indefinitely. A leading hotel keeper of Charleston has been to this city to visit the butchers of Fulton market, and secure contracts for beef to be delivered in Charleston during the convention, but found the prices demanded too high, and fears are entertained that the culinary preparation of beef will, from a lack of the raw material, soon become to Charleston one of the lost arts. This will certainly be the case in the event of the failure of the line of steamers to New York.

It is bad enough for Charleston to have to depend on a northern market for her food, and not be able to buy it; but we do not pity the citizens there so much as we do the unsuspecting democrats who will flock next month to that city to face the inconveniences of extortion and the peril of famine.—*N. Y. Evening Post.*

ALL SORTS OF PARAGRAPHS.

CARSHANG VS. SHAW.—THE GREAT BREACH OF PROMISE CASE.—The second trial of the great breach of promise case in St. Louis, in which the plaintiff formerly recovered a verdict of $100,000—the full amount of damages claimed—has commenced. The list of new witnesses examined embraces the names of seventy-five persons in the state of New York, chiefly residents of Brooklyn; twenty-five from Charleston, South Carolina, (including Col. Memminger, envoy extraordinary to the Virginia legislature,) and a number in Illinois, Iowa, Ohio, and Massachusetts.

The Albany Evening Journal says with truth: "Mr. Thaddeus Hyatt has succeeded in making himself notorious in a very absurd way. He got into contempt first, by refusing to obey a subpœna to testify before a committee of the senate; and then into prison by persisting, contumaciously, to be examined about a matter which, in all probability, he knows nothing, but wants to 'make believe' that he is as knowing as 'Maj. Joe Bagstock.'"

The democracy of Louisiana have resolved, in state convention, to sustain their brethren of Alabama and Mississippi in insisting on the adoption (substantially) of a slave code platform, by the Charleston convention, and instructing their delegation to withdraw if their efforts to that end are unsuccessful.

AN ARRAY OF REPUBLICAN TRIUMPHS.—The city elections held thus far, all along the line from Poughkeepsie, N. Y., to Chicago, have resulted in republican victories, without exception. Poughkeepsie, Utica, Auburn, Rochester, Oswego, Detroit and Chicago, have recorded themselves on the republican side.

It is stated that a suite of twenty noblemen and distinguished gentlemen will accompany the Prince of Wales on his visit to Canada this spring. It is said further that that His Royal Highness the Duke of Cambridge, the Duke of Newcastle, and Major General Bruce, will be among the nobilities on that occasion.

SURE ENOUGH—A POINT FOR DOUGLAS MEN.—Mr. Trumbull, who knows just how to manage Mr. Douglas, in his late tilt with the latter in the senate, after Mr. Seward's speech, asked Douglas how there were to be under his doctrine any more free states, inasmuch as he asserted that the constitution carried slavery into the territories, and further said that no state could undertake to deprive persons of their property. How under the latter proposition slavery was to be excluded from any state he could not see.

Certain Pennsylvania blacksmiths have been lately engaged in a contest of superiority. One, a Mr. Thomas Rambs, of Reading, made 220 horse-shoes in 9¾ hours. This feat was beaten by a Mr. Lewis Hause, and he again was surpassed by Mr. Joseph Mabury, of Schuylkill Haven, who, with one striker, made 250 complete horse-shoes, in 8½ hours, viz: 5 successive hours in the morning, and 3½ hours in the afternoon.—Each shoe was made of new iron, with eight double punched nail holes.

The delegates from Massachusetts to the Charleston democratic convention, and such as propose to be present at the meeting of that body, in April, are making arrangements to go in a body. It is proposed to charter one of the new steamers of the Baltimore line for the trip.

In reply to resolutions adopted at a public meeting in Waushara county, Judge Cate definitely and at length affirms the correctness of the position of our supreme court in regard to unconstitutional laws of congress and the powers and duties of state courts.

WHO IS THE FALSIFIER.—A few days since, Mr. Van Wyck, in the course of his remarks in the house, spoke of the barbaric tendences of the slave system, and as an evidence of it he stated that it had caused the burning of slaves alive.

Mr. Davis of Mississippi, instantly denied the assertion of Mr. Van Wyck and called him a liar and a scoundrel. Mr. Gatrell, of Georgia, also affirmed the statement of Mr. Davis. The New York Tribune comes to the relief of Mr. Van Wyck with the complete record of eleven cases of the burning of slaves, taken from southern papers. Now, who is the liar?

WHO ARE THE FRIENDS OF THE HOMESTEAD BILL?—This question was pointedly and truthfully answered by Mr. Grow a few days since, when he said:

Three times within seven years, a homestead bill has passed this house, and been defeated each time by the democratic majority in the senate. On the vote on the homestead bill in the house, last congress, out of one hundred and thirty democrats, but thirty-one voted for it; and in the senate, on the test vote between taking up the homestead bill, after it had passed the house, and only required the vote of the senate to make it a law, so far as congress was concerned, or to take up the bill for the purchase of Cuba, but one democrat voted for the homestead, and only six at any time; while every republican in the senate, and every one in the house, with a single exception, was for the homestead. Of all the representatives of the slave states, but three in the house voted for it; and but two, at any time, in the senate. So the democratic party, as a party, arrayed itself in opposition to this beneficent policy. The republican party, on the other hand, is committed to the measure by its votes in congress, by its resolves in the state conventions, and by its devotion to the great central idea of its existence—the rights and interests of free labor.

SAFETY OF THE ROOF OF THE HIGH SCHOOL BUILDING.—Rumors having gone abroad that the roof of the High School building is unsafe, Mr. George Barnes, a well known, experienced builder, examined it on Monday, and pronounces it entirely safe. We think the public can rest assured that there is no danger to be apprehended.

APPORTIONMENT OF THE SCHOOL FUND.—The school fund has just been apportioned by the state superintendent. The amount distributed is $139,651 to 299,302 children, giving 50 cents per scholar. Last year the fund distributed was $169,352 to 264,352 children. Less this year by $29,700. The increase in the number of children is 14,950. Rock county receives this year $7,104.50—last year $8,974.14. No. of children reported last year 14,023—this year 14,209.

The amount of school money received in Janesville this year from the state is $1,844.50—last year $2,275.84. Number of children reported this year 3689—last year, 3556.

There are three counties which receive more school money than Rock county, viz: Dane, Dodge and Milwaukee.

There will be another apportionment this year, as soon as the amount reaches $20,000.

A SUIT DECIDED.—The suit of A. Hyatt Smith, plaintiff in error, against Henry C. Bowen, defendant in error, has been decided in the supreme court of the United States. It was argued by J. R. Doolittle for Mr. Smith and W. P. Lynde for Mr. Bowen.

Justice Catron delivered an opinion affirming the judgment of the district court with interest and costs.

THE FIRST STEAMBOAT.—The Delafield Young America, after noticing the arrival of Mr. Foster's boat, says "that wasn't the first steamboat that navigated Rock river. N. P. Hawks, of this village, run a steam boat up to Janesville 19 years ago, and knocked off a quarter-cabin in turning a bend of the river, one mile below Janesville."

HOTEL PRICES AT CHICAGO.—The Chicago Tribune says that the hotel charges in that city during the session of the national convention will not be more than the usual rates. The highest price now paid is $2,50 per day, and there are grades all the way down, below which no delegate or outsider will desire to go. This is a just as well as sensible arrangement.

☞ The Bible and music classes of Christ Church, and the usual Lent services of this week will be dispensed with, owing to the illness of the rector.

FIRE IN ROCKFORD.—It was the Winnebago House, called Winnebago Hall, and two small framed buildings, that were burned in Rockford last week. The Winnebago House was an old brick shell, occupied as stores, and the loss is estimated at $10,000 or $12,000, instead of $60,000 as first reported. Most of the loss is covered by insurance. The Register says—"The property burned constituted some of the oldest buildings in the city, and have long been considered among the most dangerous as to fire. The Winnebago House, which was of brick, was built twenty-one years since, by Dr. Haskell and Squire Lyon, and long figured in the early history of the place as one of the best hotels in the west. It wss the third brick building erected in the county. It was at present held by the assignee of J. D. Seaton, and insured for $4,000, which is doubtless its full value."

The fire is supposed to be the work of an incendiary.

A FAVORABLE CHANGE.—A very favorable change took place in the weather last evening. For several days a warm, spring sun shone brightly, and fears began to be entertained that the buds and leaves of the trees would be so far developed as to receive great injury by the cold winds, if not frosts, we are liable to have before spring sets in permanently. But yesterday a colder temperature prevailed, and the anticipated injury we hope will be averted.

ELECTION OF ENGINEERS.—At the annual meeting of the fire department, held at the Hook and Ladder house, on Monday evening, March 19th, for the purpose of electing engineers, for the council to confirm, W. B. Britton was chosen chairman, and John C. Spencer secretary.

The whole number of votes cast for chief engineer was 64, of which Ira Justin, Jr., received 63, and blank 1; whereupon Mr. Justin was declared unanimously elected.

A formal ballot for first assistant engineer resulted in the election of James Hemming, by the following vote—James Hemming 40; W. M. D. Birt 30; scattering 2.

The department could not agree on second assistant, and finally adjourned without making an election. Mr. Joseph James is the present assistant, and will, according to the rules and regulations of the department, hold over.

The vote by companies, on chief engineer, run as follows:—Rock River No. 1, 16; Water Witch No. 2, 31; Rescue No. 1, 14; Sack Company, 3.—64.

☞ At the annual meeting of Water Witch Engine Co. No. 2, held on Monday evening, March 19th, the following officers were elected for the ensuing year:

Foreman—CHARLES P. KING.
Ass't Foreman—ROBERT HODGE.
Hose Captain—WM. H. SARGENT.
Co. Engineer—NAT. W. PROPER.
Clerk—GEO. O. WRIGHT.
Treasurer—RUFUS P. YOUNG.
Steward—JOHN HEMMENS.

☞ The homestead bill was up for a short time in the senate on Tuesday, but final action upon it was postponed until Wednesday.

☞ The two arrested Milwaukee officials were brought before Judge Mallory on Monday, for examination, accompanied by their counsel. Twelve new charges were presented.

Wind and Sea.

The Sea is a jovial comrade,
He laughs wherever he goes;
His merriment shines in the dimpling lines
That wrinkle his hale repose;
He lays himself down at the feet of the Sun,
And shakes all over with glee,
And the broad-backed billows fall faint on the shore,
In the mirth of the mighty Sea.

But the wind is sad and restless,
And cursed with an inward pain;
You may hark as you will, by valley or hill;
But you hear him still complain.
He wails on the barren mountains,
And shrieks on the wintry sea;
He sobs in the cedar, and moans in the pine!
And shudders all over the aspen tree.

Welcome are both their voices,
And I know not which is best;
The laughter that slips from the ocean's lips,
Or the comfortless Wind's unrest.
There's a pang in all rejoicing,
A joy in the heart of pain,
And the wind that saddens, the Sea that gladdens,
Are singing the self-same strain!

A Western Art Criticism.

A correspondent of the Buffalo Courier narrates the following shrewd criticism passed by a rough western man man, on the prairie picture, by Beard, the well known artist of that city:

A few mornings ago, as I was standing admiring—as I confess myself quite fond of doing—that beautiful deer group, a tall, unmistakably western man came up behind me, and looked over my shoulder. I noticed at once the quick stoppage of breathing, which always follows admiration; but to my surprise, the stop was short, and something like a laugh quickly succeeded. Looking up, I saw a yellow face overspreading with a smile, and there was a decided twinkle in the eye.

"Pshaw!" said he "that's no pictur, after all. That ain't no fair representation."

"Why, said I, "that struck me as being a pretty good painting."

"Maybe it's good enough for a *painting*," said the western man, "I don't say any thing agin that; but there never was no scene enacted like it. Jest look at that tall rice grass up there, and then the fern weeds below—who ever saw them grow together? Why, the one grows on wet and the other on dry land. But that's pretty wet land," he continued, "and jest see them deer's feet, how clean they be. They ought to be mud up to their knees; and at the gait they're going at, they'd be spotted with mud all over. I tell ye, when I went to that country first, the men skeered me sometimes, driving their wagons on a wet prairie, but they'd tell me it was all right and sure enough, I would find a good bottom, a foot down. Then the next thing I know'd, they would be giving a pretty wide berth to a place that looked, at first sight, exzactly like the other; and I soon found an easy way to tell was by the grasses."

"If any o'ye know that painter chap," said the unconsciously keen critic, and he prepared to move off, "jest tell him—but it's no use," he said, lowering his voice, "that's a good enough city prairie!"

"We learn from Green Bay, Wisconsin, that on the 3d inst., a severe gale gale was experienced, during which two men and two pair of horses were blown out on the bay on the ice and lost. No assistance whatever could be rendered them, owing to the severity of the gale."

We have published the above item once before, and republish it merely to remark that Mr. Gabriel Shoyer, of this city, has just returned from up near Marquette, on Lake Superior, and he ascertained on his return that the men mentioned above, were drifted off upon the ice about fifty miles, but they finally came to an island and were saved. Their horses at one time got in, and floated some miles before they got them out. The ice had separated from the main body, or rather had all broken up. Mr. Shoyer says that he himself rode nearly fifty miles over ice that was partially broken up, and that it was the most perilous ride he ever took, but he was determined to get through.

He left the country near Marquette a week ago last Tuesday, and when he left, the snow was over two feet deep in that vicinity. He and his teamster rode seventy miles through snow, without passing by a single habitation, except some huts or stations for stopping over night. They were three days in accomplishing the distance. Mr. Soyer brought down with him about $3,000 worth of furs, consisting of martin, fox, wolverine, bear, mink and other skins. He says he had a tedious trip, and suffered considerably, but he saw a country which was interesting for its novelty and wildness, and with his fur speculation, he feels repaid for his trip in going.—*Wisconsin.*

Non-Explosive Burning Fluid

USED WITH SAFETY & ECONOMY.

The Best in the Market.

Palmer's Drug and Tea Store.

WE have, for several years past dealt largely in BURNING FLUID, and have always, thus far, kept fully *up to the times*, in any improvements made in its manufacture. Nearly a year ago, in an appeal in favor of its more general use, based upon the fact that the raw material from which it is made, is mainly the product of our own farms, we publicly announced that there was, at the temperature at which it is generally used, "no explosive power whatever in Burning Fluid, *as now made by those who understand the business in which they are engaged.* That injury from its use was either the result of gross carelessness, or of undue alarm caused by a belief in its explosive power," &c. Since then we have manufactured and sold thousand of gallons to consumers in this city and vicinity, and if our assumption was an erroneous one, it would undoubtedly have been discovered ere this.

We are prepared to submit our Fluid to any test the public may call for, satisfied that, with ordinary care, *no safer, better or more agreeable light can be produced.* As we are indebted to no travelling "PROF. GREEN—O!" for the high state of perfection attained by us in its manufacture, we are, as usual, prepared to offer our Fluid at the *LOWEST MARKET FIGURES*, and to guarantee entire satisfaction in its use, or the money refunded.
